DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 9-11 directed to invention non-elected without traverse. Accordingly, claims 9-11 have been cancelled.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please cancel claims 9-11.

Claims 1-4 and 6-7 are allowed.

2. The following is an examiner's statement of reasons for allowance:

After carefully reviewed the Applicant's arguments and newly amended claims in paper filed 8/21/06, and updated prior art of record, the Examiner finds that the Applicant's arguments and newly added limitations are reasonable and strongly persuasive. Therefore, they place the application in condition for allowance. The primary reason for the indication of the allowability of the above claims is the inclusion therein, in combination as currently claimed as a whole, of the limitation of the method of forming an IC MOS including the step of simultaneously a second plasma nitration of the second

dielectric layer and the first dielectric layer, the first dielectric layer having a nitrogen concentration of 5 to 20 atomic percent after forming the second plasma nitration. This limitation is found in the above claims and is neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
